

Sesha

+Plus

ATCC + ANPR (Cloud)

ATCC + Automatic Number
Plate Recognition

Cloud Based Movable Traffic Solutions

Portable • Rugged • Cloud-Ready • View Anywhere • Control Anywhere

The Sesha Plus is a breakthrough in traffic analytics and surveillance. Built on our proven ATCC technology and enhanced with Automatic Number Plate Recognition (ANPR) and OCR, this Cloud - Based solution delivers unmatched accuracy, Flexibility, and Scalability. Designed for industrial-grade performance, it ensures seamless integration across Infrastructure Projects, Smart Cities, Gated Communities, and Law enforcement applications.

Key Highlights

- ANPR+ATCC+OCR-Accurate Plate Read & Vehicle Class
- Rugged, Weather - proof Enclosure - Compact Size
- Live Cloud Dashboard-secure Login, Instant Visuals
- Plug & Play - Fast, Minimal Install
- LFP Battery - ≤30H Run Time, Quick Swap
- Deploy Anywhere-Industrial, Residential, City-Scale

Applications

- Industrial & Infrastructure - Traffic Monitoring & Access Control
- Smart-city - Integrated Mobility & Surveillance
- Residences & Gated Communities - Entry / Exit & Parking Automation
- Road - Survey Engineers & Contractors - Reliable Data & Analytics
- Traffic & Law-enforcement - Violations, Tracking & Enforcement
